### Detailed Itinerary:

#### Day 1: Arrive Cusco and transfer to your accommodation

A representative from the School will be waiting for you upon arrival in Cusco at the airport or bus station. They will take you to your accommodation and introduce you to your host family, or help you check-in to the Student Residence. In some cases your host family will pick you up from the airport themselves. Spend the night at your chosen accommodation.

#### Day 2: First day of School

On the first day of classes, your host family will take you to the school or tell you how to get there using public transport. After a written and oral placement test you will have a practical City Tour of Cusco with all other new students. A representative of the School will explain how to get around the City, how to use public transport, where to find important places and tell you about the history of Cusco.

In the afternoon all new students participate in an orientation session. You will be placed in a class and your teachers will explain the schedules, rules for living with host families, optional cultural activities and weekend trips. You will also be given information about safety in Peru and how to make the most of your time in the City.

### Days 3-6: Spanish Language Classes

The classes consist of highly structured grammar lessons, interactive activities, conversation and written exercises. Specific homework assignments are given daily and you will have a test at the end of the week to measure your progress. Schedules vary according to class programming. The schedule below is given as an example only:

## A Note about booking flights

At Discover South America Ltd we specialize in making holiday arrangements on the ground in South America, and do not currently book flights. Some of our itineraries require that you purchase flights within South America, as the distances are too large to travel overland. We will advise you of any domestic or international flights that you need to book to make our itineraries work. We are happy to find the most suitable flights for your trip and then put you in touch directly with our recommended Flight aAgent, who will make the booking for you. Please ask us for more information.
